▶ WHO WE ARE

We are a music production company that specializes in the development of instrumental, vocal and performance skills.

PEPPY PEOPLE'S MUSIC is Inet Productions' Music Program catered to transitional toddlers, Preschoolers, Early Childhood Educators & Seniors.

The sole purpose of our **ECE workshops** is for Educators to understand how music affects the brain in early childhood development and teach strategies of ways to include music in the curriculum.

PEPPY PEOPLE'S MUSIC will provide a pleasant, stimulating multicultural musical environment through singing, use of instruments, movements, playful musical games and music history which will help to promote individual development of musical skills.

I. SINGING

Listening skills & Ear training is the basis for singing in tune, language development, social skills, etc.

We will explore the importance of pitch training and how it relates to singing high, low, soft and loud sounds.

MOVEMENT

Singing and movement are closely linked.

LEARNING THE WORDS, MELODY AND ACTIONS OF A SONG HELPS TO IMPROVE MEMORY.

*WORKSHOPS

Can be tailored to individual programs from 2 hour sessions to half day workshops. Our workshops cover brain development as it relates to music including hands on activities such as singing, movement and curriculum planning development.

* Prices for workshops are negotiable.

BENEFITS

The benefits of this workshop are:

1. To Learn more about the importance of music in Early Childhood.
2. To Learn new strategies in incorporating music into a curriculum.
3. Strengthen relations between teacher and child.
4. Therapy for the mind through Mindful Music Matters, the joy of singing and listening to music.

Music stimulates all areas of child development and skills which prepares them: intellectually, socially and emotionally

INSTRUMENTS

Educators will enjoy making sounds and exploring different instruments.

They will get a chance to hold, handle and play them while being apart of a group setting.
